## More than 40 percent of students qualify for free or reduced-price meals

MADISON — School meal reimbursement data for the current school year shows that two out of every five public school students receives free or reduced-price school meals based on household income, a 6.8 percent increase from last school year.

Wisconsin has 346,184 students (41.4 percent) qualifying for free or reduced-price school meals, an increase of 22,011 from last school year when 39.0 percent of students qualified for free or reduced-price meals. The percentage of students eligible for subsidized meals has increased steadily for the past seven years.

“Funding for public schools is vital at a time when two out of five students receive free or reduced-price school meals,” said State

Superintendent Tony Evers. “The proposed 2011-13 budget makes huge

cuts to education, balancing the fiscal follies of adults on the backs of children, especially those living in poverty.

We need a budget that is fair, equitable, and does not do permanent harm to our public schools.”

For the current school year, Wisconsin has 95 public school districts in which 50 percent or more of students qualified for free or reduced-price school meals, up from 72 districts last year. Eight districts have subsidized meal eligibility rates of 70 percent or more: Bayfield, Beloit, Lac du Flambeau, Menomonee Indian, Milwaukee, Siren, Webster, and Winter. Sixty-three districts had eligibility increases of 20 percent or more from last school year. Of the state’s 424 public school districts, all but 10 participate in the National School Lunch Program.

“Families that face economic challenges come from all parts of our state,” Evers noted. “My school finance plan accounted for poverty with a weighting factor for state school aids and targeted state resources to children in poverty and at-risk students. The Webster School District is an example of the inequity of the current school funding system. The district now has a subsidized meal eligibility rate of 76.8 percent, yet receives no state equalization aid

(more)

to support the education of its children. The unprecedented cuts to public education in the proposed 2011-13 budget disproportionately target our students' schools and negatively impact children and families who struggle the most."

According to federal eligibility guidelines, children in households with incomes at or below 130 percent of the federal poverty rate, or \$28,655 annual income for a family of four, receive free meals. Students approved for reduced-price meals, which account for just 6.1 percent of public school students statewide this year, are from families whose annual income is under 185 percent of the federal poverty rate. For a family of four, income would be between \$28,655 and \$40,793.

Families can apply for free or reduced-price school meals at any time, though schools enroll most students for the school lunch and breakfast programs at the beginning of the school year. Eligibility is based on total household income. Families that receive FoodShare, Food Distribution Program on Indian Reservations (FDPIR), or Wisconsin Works (W-2) benefits and foster children that have been formally placed by a state child welfare agency or court are eligible for free meals. All information about eligibility is kept confidential and programs must follow nondiscrimination laws.

"Poverty can have a harsh impact on student learning," Evers said. "The National School Lunch and School Breakfast programs have been providing nutrition to school-age children for decades. Research shows that students who eat school meals perform better in math, reading, and other subjects; are more attentive in class; and have better behavior in school. These programs certainly make a difference in the lives of our kids, especially those from low-income families."

###

**NOTES:** A list of free or reduced-price meal eligibility rates for the 2009-10 and 2010-11 school years is attached. Additional information about the National School Lunch and School Breakfast programs is available on the Department of Public Instruction Wisconsin Child Nutrition Programs website at <http://dpi.wi.gov/fns/index.html>.
